*Keys to Successful Selling*

## Standard Industrial Classification

3555 – Printing Trades Machinery & Equipment

## Application:

The industrial bulk ink delivery system is used for mail addressing, mail postage, carton coding, barcode printers and many industrial applications that require long production runs, low cost per imprint and reliable, user friendly printing systems.

## In This Application:

The Versatile Black Bulk Ink System consists of the Modular Ink Supply Station holding the ink cartridges, the Enclosed Regulator Assembly and the Print head Stalls. The tubing between the enclosed regulator assembly and print heads can be easily connected and disconnected with the non-spill couplings shut off valve.

## Media:

Black Ink

## Pressure:

Vacuum to 120 psi

## Temperature:

32° to 160° F  
0° to 71° C

## Colder Part Numbers:

NS4 non-spill couplings

## Features/Benefits:

- Audible “Click” confirms a secure connection is made and assures a secure seal
- Easy-to-use thumb latch allows a single-handed operation
- Low-cost

## Versatile Black Bulk Ink System

## Features/Benefits:

- Improved serviceability of the printheads and ink supply system.
- Shut-off valve avoids messy ink spillage that can cause costly downtimes

All sales are subject to Colder Products Company's limited express warranty set forth in the Colder catalog. Contact your local distributor or Colder Customer Service for warranty provisions.
